

# design & build

FRANKLIN

2020-2021

Your building and renovation magazine

**D**esign & Build Franklin is an annual guide covering building issues in the Franklin district, which is becoming the fastest growing area of Auckland. It will also encompass our neighbouring areas of Mercer, Pokeno and Tuakau, which are within North Waikato's boundary.

This special publication will look at buyers' options within these unique communities, from town living to off-the-grid, rural locations. We examine the options, including the seeking of new titles from larger blocks, to off-the-plan buys in new subdivisions, along with town developments.

With so many choices available, what are the real points of difference that building companies and home services offer?

This full colour, glossy information guide aims to aid in the decision-making process. The publication will be available for pick up throughout the Franklin region and online at [yourdesignandbuild.co.nz](http://yourdesignandbuild.co.nz).
